

FURUTECH

PURE TRANSMISSION

Cradle-Curved

for NCF Booster (1pc/set)

FURUTECH original design --- Hybrid multi-material construction for improved sound quality

Cradle-Curved :

Audio grade ABS resin and NCF Nylon resin - eliminating static charge.

Nano Crystal² Formula (NCF).

Incorporated into selected Furutech products, NCF features a special crystalline material that has two 'active' properties. First, it generates negative ions that eliminate static. Second, it converts thermal energy into far infrared. Furutech combines this remarkable material with nano-sized ceramic particles and carbon powder for their additional 'piezoelectric effect' damping properties. The resulting Nano Crystal² Formula is the ultimate electrical and mechanical damping material. Created by Furutech, it is found exclusively in Furutech products.
