

FURUTECH

PURE TRANSMISSION

NCF[®]

Shaft Bar Adjuster

for NCF Booster / NCF Booster-Signal (2pcs/set)

FURUTECH original design --- Hybrid multi-material construction for improved sound quality

Nano Crystal² Formula (NCF).

Incorporated into selected Furutech products, NCF features a special crystalline material that has two 'active' properties. First, it generates negative ions that eliminate static. Second, it converts thermal energy into far infrared. Furutech combines this remarkable material with nano-sized ceramic particles and carbon powder for their additional 'piezoelectric effect' damping properties. The resulting Nano Crystal² Formula is the ultimate electrical and mechanical damping material. Created by Furutech, it is found exclusively in Furutech products.

Shaft Bar Adjuster:

- NCF Nylon resin and Ni-plated Brass screw body.
- Overall Dimensions: 20.0mm diameter X H 42.6mm approx.
- Net Weight: 57g approx. (2pcs/set)
